1. **Keys (Review):** Primary / Composite / Foreign Key
2. **ER Diagram (Review) :** Avoid redundancy and incompleteness,
   Primary Key → <u>attribute_name</u>
   More than one value → { attribute_name }
   Derived attribute → attribute_name ()

   **Relations. Relational attributes (** Dotted relation line **)**

3. **Data Types (Review) :** INT, FLOAT, VARCHAR, DATE.
